

## The Shocking Truth About Electrical Safety

## **Pre/Post Test**

Directions: Circle the one correct answer.

1.	What is the name of the pa	ath that electricity trave b) current	ls? c) circuit	d) volt
2.	A material that electricity a) an insulator	can flow through easily b) a conductor	is called c) an outlet	d) a path
3.	The pressure of electric cua) amps	urrent is measured in b) inches	c) yards	d) volts
4.	Electricity always takes th a) insulator	e easiest b) path to the ground	c) way out	d) light
5.	A ground fault circuit interrupter (GFCI) monitors the flow of a) gas b) water c) air d) electricity			
6.	What measures the amount of work done by electrical power? a) watt b) volt c) circuit d) amp			
7.	What do substations do? a) raise electricity's voltage b) sell generators		c) lower electricity's voltage d) make utility poles	
8.	Always assume that downed power lines are a) being fixed b) carrying electricity and unsafe		c) okay to touch d) not live	
9.	What should you <u>not</u> do if you see an electrical fire?  a) telephone for help from a safe location b) tell an adult about the fire c) put the fire out with water d) have an adult use a proper chemical extinguisher			
<ul> <li>10. If someone is being shocked by electricity what should you not do?</li> <li>a) tell an adult to turn off the power at the fuse box or circuit breaker</li> <li>b) call 911 for help</li> <li>c) if victim is not in contact with electricity have an adult give CPR</li> <li>d) grab the person and pull them away from the electricity</li> </ul>				

## The Shocking Truth About Electrical Safety

## **Pre/Post Test Answer Key**

Information that relates to each question can be found on the pages listed below.

- 1. c) circuit. Page 2
- 2. b) a conductor. Page 3
- 3. d) volts. Page 4
- 4. b) path to the ground. Page 5
- 5. d) electricity. Page 6
- 6. a) watt. Page 8
- 7. c) lower electricity's voltage. Page 9
- 8. b) carrying electricity and unsafe. Page 12
- 9. c) put the fire out with water. Page 13
- 10. d) grab the person and pull them away from the electricity. Page 14
